

DELHI PUBLIC SCHOOL JAMMU

Session 2025-2026

Assignment (Month-April)

Class-III

Sub-EVS

1.Read the paragraph and answer the following questions:-

Animals are living creatures that can move, eat, and respond to their surroundings. They are found all over the world, from deep oceans to high mountains. Some animals live in forests, while others live in deserts or even in our homes as pets. Each animal has special features that help it survive. For example, camels can store water and walk on sand, making them perfect for desert life. Birds have wings and feathers that help them fly. Animals play an important role in nature. They help keep the environment balanced and healthy.

- 1.Name some places where animals live?
- 2.What helps birds to fly?
- 3.Why are animals important to nature?

II. Fill in the blanks:

- 1.Each animal has _____ that help it to survive.
2. Animals that live in forest are called _____.
- 3.An _____ is the largest bird on the land .

III. Give one word answer:

1. We get milk, eggs, meat from them.
2. The tallest animal on the earth.
3. They need food to live.

IV. Value based question:

Why is it important to be kind to animals, and how can we show kindness towards them?
