OBJECTIVES OF PHYSICAL EDUCATION

Health and physical education are concerned with the total health of the learner and the community besides physical health, it includes the mental, social, and emotional health of the learners. WHO defines health as a state of physical, mental, and social well-being and not merely the absence of diseases or infirmity. Health and physical education aim to enable the students to attain such a state of health that, it becomes an education for total human wellbeing.

OBJECTIVES OF THE THEORY OF PHYSICAL EDUCATION

The teaching of physical education at the Senior School stage intends to help the students:

1. To bring the overall awareness of values and inculcate among students the desired habits and attitudes towards health and raise their health status.
2. To make the pupil physically, mentally, and emotionally fit and develop their personal and social qualities that will help them to be good human beings.

OBJECTIVES OF PRACTICAL OF PHYSICAL EDUCATION

1. To develop an interest in exercise, sports, and games for self-satisfaction and make it a part of life;
2. To enable an individual to enhance inner qualities - self-mastery, discipline, courage, confidence and efficiency.
3. To develop motor abilities like strength, speed, endurance, coordination, flexibility, agility and balance, as they are important aspects for good performance in different games and sports.
