9 Case Study Based Question

One important step taken by the government to reduce inequality in society is to introduce the **Midday meal scheme**. Tamil Nadu is the first state to introduce the scheme. This scheme has many advantages; it led to an increase in the enrollment of students in school. It also improved the attendance of students in school. Earlier, children went home on the pretext of having a food, but did not come back. It is not so now. It also helps in reducing caste discrimination because persons from different castes are employed to cook these meals. Moreover, children belonging to different castes sit together and have their meal. It also ensures that children should get healthy and balanced diet.
