SECTION A (READING)

Q1. Read the passage and answer the questions that follow:

COVID-19 is a disease caused by a virus called the coronavirus. It was first found in late 2019 and quickly spread around the world, causing a global pandemic. People with COVID-19 may have symptoms like fever, cough, tiredness, and loss of taste or smell. Some people get very sick and need hospital care, while others recover at home with rest and medicine. To stop the spread of the virus, many countries asked people to wear masks, wash their hands regularly, and stay at a safe distance from others. Schools, offices, and public places were closed for a time to keep people safe. Vaccines were later developed to protect people from getting very sick with the virus. COVID-19 changed the way we live. Many people began working or learning from home. It also showed how important it is to take care of our health and follow safety rules. Though the worst of the pandemic has passed in many places, we still need to be careful and responsible.
