**SESSION: 2021-22**

**CLASS: IV**

**SUBJECT: EVS**

**TOPIC: RELATIONSHIPS IN A FAMILY.**

**1. OUR FAMILY**

Parents and children make a family. We all live in a family. Some families are small and some are big. Our family fulfils our basic needs like food, shelter & clothes. It gives us a lot of love and companionship. We share our joys and sorrows with our family members.

**2. MEMBERS OF A FAMILY**

Parents and children must take care of one another. Children should not hurt the feelings of their family members. They should listen to the advice of their parents. Children should have healthy relations with their parents and they should respect them. Foremost duty of a child is to pay attention to his/her studies. When children study hard, their parents become more than happy with them. Some parents do not have their own child, so they adopt a child from an orphanage and become foster parents.

**QI. GIVE ONE WORD ANSWER:**
