

DELHI PUBLIC SCHOOL, JAMMU
SYLLABUS BIFURCATION
SESSION- (2022-23)

CLASS-XII

SUB: Geography(029)

Geography is a study of physical features of earth and its atmosphere. It also includes distribution of populations, resources, political and economic activities.

Objectives of the theory:

1. To acquire the ability to interpret the distribution and processes of human and physical phenomenon.
2. Locate the places and understand the relationship between them according to the scale.
