Dear All,

The energy of children and a plethora of awareness for excellence make schools truly vibrant places.

It is in these very spaces that young and innocent mingle freely, and where we get an opportunity to impact the young minds uniquely.

We believe in giving our children, wings of strong values along with required skill-set to help carry themselves far and wide. We aim to address the average, challenge the gifted and motivate the weak.

Exposure to different perspectives, skills and approaches will go a long way in enriching our children holistically.

It gives me great pleasure to congratulate the Editorial team of 'KRITI' for bringing out the new edition of the School Magazine and opening the doors for continuing excellence.

I take this opportunity to thank staff, students and their parents for their support in making DPS Jammu, truly a school that students

enjoy and we take
pride in.

Keep Soaring, Keep Growing!!

Best wishes always.

Principal, DPS Jammu.

Dear all,

"Somewhere, something incredible is waiting to be known" -

At DPS Jammu, our primary focus is 'Student Learning'. All students must be prepared to be successful in the 21st century careers - many of which do not even exist yet. Students must know how to think, to solve problems, to innovate and to collaborate. We firmly believe, children acquire skills and knowledge easily if we can make the surroundings stimulating and purposeful.

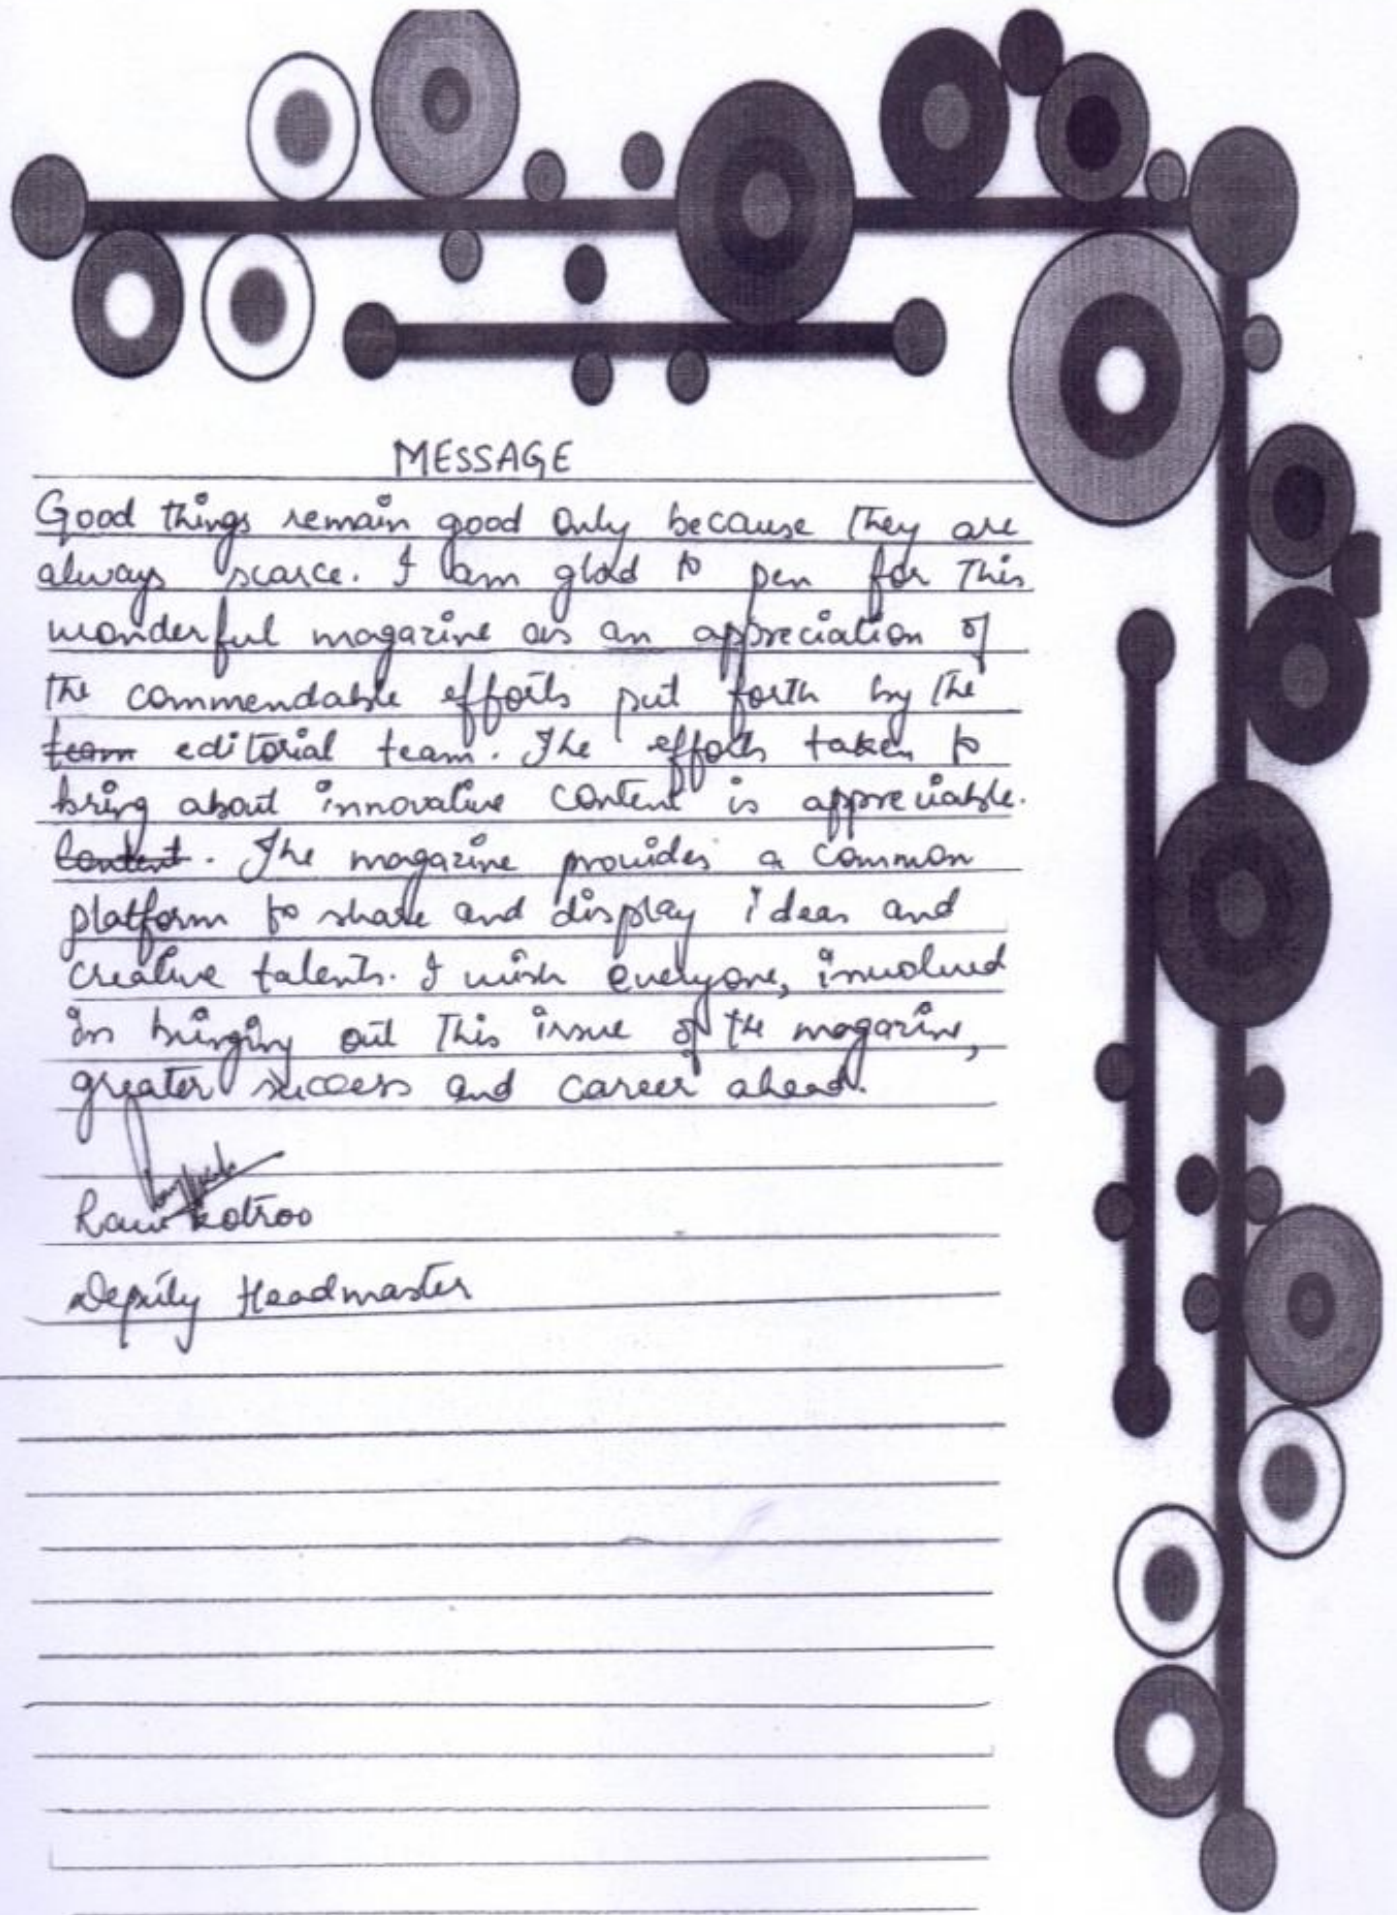

'Kriti' - the school magazine is one such platform for our diprites that help them express their literary, artistic and innovative talents.

I congratulate the Editorial Team and its members on the tireless efforts in successfully bringing out this issue of 'Kriti'.

Warm wishes and God's blessings!

IT IS UP TO YOU

One song can spark a moment

One flower can make the dream

One tree can start a forest

One bird can herald spring

One smile can begin friendship

One star can guide a ship at sea

One note can change the nation

One word can frame the goal

One sun beam lights a room

Some go in search of discipline

Others it will find

And being changes fourth with actions

The Voice of the Rain

And who are thou? said I to the soft-falling
shower, which, strange to tell, gave me an
answer, as here translated: I am the Poem
of Earth, said the voice of the rain,
eternal I rise impalpable out of the land
and the bottomless sea, upward to heaven,
whence, vaguely form'd, altogether changed,
and yet the same, I descend to save
the draughts, atomies, dust-layers of the globe,
and all that in them without me were seeds
only, latent, unborn; and forever, by day
and night, I gave back life to my own
origin, and make pure and beautify it;
[For song, issuing from its birth its birth-place
after fulfilment wandering.]

The Portrait of a Lady

My grandmother, like everybody's grandmother, was an old woman. She had been old and wrinkled for the twenty years that I had known her. People said that she had once been young and pretty and have even had a husband, but this was hard to believe. My grandfather's portrait hung above the mantelpiece in the drawing room. He wore a big turban and loose-fitting clothes. His long, white beard covered the best part of his chest and he looked at least a hundred years old. He did not look the sort of person who would have a wife or children. As for my grandmother being young and pretty, the thought was almost revolting. She often told us of the games she used to play as a child.

A Photograph

The cardboard shows me how it was
when the two girl cousins went paddling,
each one holding one of my mother's hands,

All three stood still to smile through their hair
at the uncle with the camera. A sweet face,
my mother's that was before I was born.
And the sea, which appears to have changed less,
washed their lively transient feet.

Some twenty - thirty - years later
she'd laugh at the snapshot. "See Betty
and Dolly," she'd say, "and look how they
dressed us for the beach." The sea holiday

Keeping Quiet

Now we will count to twelve
and we will all keep still.

For once on the face of the Earth
let's not speak in any language,
let's stop for one second,
and not move our arms so much.

It would be an exotic moment
without rush, without engines,
we would all be together
in a sudden strangeness.

The highest of mountain air,

The tallest of trees.

Look on these trees, full of white caps
River flowing down the hill, so

we have variety of colours in flowers
Amounts of shapes, symmetries & heights
There is not only dust as on other planets.

THE WONDER OF NATURE

Nature! Nature! so lush and green,
The wonder of wonder anyone has seen.
So cool, calm and full of life
Makes us forget all our strife.
Think of a forest full of trees,
Fluttering and dancing in the breeze.
Cut them down and construct towers,
Wait for ages to get a shower.
The birds that soar high in the sky,
Can we imitate them however hard we try.
Learn to wonder and gape at the things
And see the happiness it brings.
We have got such wonderful things,
Do what you can and save a wing.

Angels on Earth

Far away in another world
Lord once asked his angels peared
Dear dear, in the land below
Who seems the finest fellow
My lord, we know not
Such knowledge we yet haven't got
Which is a priceless element humans collect
Though, its true value at times isn't felt?
To develop, it gives us courage
I wonder if you if you speak of knowledge
To tell me would you care
What are valuable things they share?
Among every girl and every boy
Highest value is of learning and joy

At last at the hands of whom
Do we all see children groom?

My word, your questions answer I have found
You speak of teachers all around.

It truly is an occupation fine
Perhaps even at the top of the line.

Dear dear, it's a great neglect
To call it but an occupation

Teachers are celestial angles on earth
Who shape their students into all they're worth

If you want to know more about the Planet's Past, Present and future, the Antarctica is the Place to go to. Bon voyage! Early this year, I found myself aboard a Russian research vessel - The Akademik Shokalskiy - heading towards the coldest, driest, windiest country / continent in the world: Antarctica.

My journey began 13.09 degrees north of the Equator in Madras, and involved crossing nine time zones, six checkpoints, three bodies of water and atleast as many ecospheres. By the time actually set foot on the Antarctica continent I had been travelling over 100 hours in combination of a car, and aeroplane and a ship.

Happiness

Happiness is like sun; it is often hidden by the clouds of thoughts, worries and desires. We have to scatter and dissolve them to experience happiness. You don't have to create happiness. All you have to do is to calm your mind because when there is a quiet mind and inner peace, there is happiness. All Happiness is not something far away and unattainable. Happiness does not depend on circumstances, objects or events. It is an inseparable part of our consciousness, of our essence, but hidden and covered from sight by our thoughts, desires & worry. The mind is always constant race from one thought to another, from one worry to another.

Don't Quit....!!

when things go wrong, as they sometimes will,
when the road you're treading seems all uphill,
when the funds are low and the debts are high,
and you want to smile, but you have to sigh,
when care is pressing you down a bit,
Rest, if you must, but don't you quit.

Life is queer with its twists and turns,
As every one of us sometimes learns,
And many a failure turns about,
When he might have won had he stuck it out;
Don't give up though the path seems slow,
You may succeed with another blow.

Friendship...

• At the end of every tunnel,

there is a light somewhere.

A light of hope and reason

and a light to guide us to

the safety from the dark

to outstretched hands there.

• These hands hold out friendship,

something everyone needs,

for friendship brings a wealth,

much more than anything money can buy,

for without this wealth,

many of us would

just shrivel up and die.

Topic :- Education.

Education is the most important factor which plays a great role in the development of an individual. It has become an important factor for the future brightness of an individual. Education has been made compulsory by the government for all the children of age 5 to 15. People living in villages and some living in towns are not getting proper benefits of good education as they lack money or other resources. Education brings confidence and helps to go ahead and get success in one's life.

Rain - The Lord's Gift

Mother nature gave me birth,
And I come down on
the earth.

My arrival makes earthly hail,
To fill me in their pail.

When I fall from Indra's crown,
I see many beautiful umbrellas
down.

I bring rainbow and thunder,
But not as cruel as hunter.

I enrich the soil,
And the farmers toil.

When I come down from mountain,
I sprinkle water on grasses like a
fountain.

In Search of Peace

I lie lowly in search of peace
Admiring the sky so high
How out of reach it seems to lie
Yet draws us to its core with ease

I see the clouds drift away
Why is it so fascinating
It isn't even lining.
It doesn't shine like its piercing ray

but it still draws us to its core

A sweet sweet harmony
of simplicity and complexity.
Freedom in each pore

Soon dark clouds take over the throne
lightning descends in the rack.
And echoes of thunder crack
while water drops from the sky are too

I know I should run in
but I can't seem to take my eyes off
what really am I so mesmerised of
perhaps the peace it carries within.

① "Story of A little girl"...

Aditi was a 14-year old girl who was scared of all things unknown to her. She was a pretty, short-haired girl. Aditi was very fond of writing articles for her school magazine. Myra was not only a good student but also a very good singer. Her voice had got her the title of a nightingale. She was very popular among the boys and girls of her age. Richa, the topper of the class. She loved reading books and she was thought to be a bookworm. Chetna was an all rounder and Meghna, was a witty girl with a good sense of humour.

THE Tiger Cub

The Maharaja of Pratibandapuram is the hero of this story. He may be identified as His Highness Jamedar - General, Khiledar-Major, Sata Vraatara Samhari, Maharajadhiraja Visa Bhuvan Samrat, Sir Jilani Jung Bahadur, M.A.D., A.C.Y.C., or C.R.C.K. But this name is often shortened to the Tiger King.

I have come forward to tell you why he came to be known as Tiger King. I have no intention of pretending to advance only to end in a strategic withdrawal. Even the threat of a Stuka bomber will not throw me off track. The Stuka, if it likes, can beat a hasty retreat from my story.

JUST THE SKIN!

No one is born hating another person because of the colour of his/her skin, or his religion.

People must learn to hate, and if they can relate they can be taught to love, for love comes naturally to the human heart then it's opposite.

Even in the grimmest times in prison, when my comrades and I were pushed to our limits, I would see a glimmer of humanity in one of the guards, perhaps just for a second, but it was enough to reassure me and keep me going.

Landscape of the Soul

A wonderful old tale is told about the painter Wu Daozi, who lived in the eighteenth century. His last painting was a landscape commissioned by the Tang Emperor Xuanzong to decorate a palace wall. The master had hidden his work behind a screen, so only the Emperor would see it. For a long while, the Emperor would see it. For a long while, the Emperor admired the wonderful scene, discovering forests, high mountains, waterfalls, clouds, floating in an immense sky, men on hilly paths, bright as birds. "Look, sire," said the painter, "in the cave, at the foot of the mountain, dwells a spirit." The painter clapped his hands, and the entrance to the cave opened.

शिक्षा का महत्व

शिक्षा का उद्देश्य मनुष्य की सभी क्षमताओं का विकास करना है; जिसके अंतर्गत शारीरिक विकास का ध्यान रहता है, जिससे वह अपने कर्तव्यों का सम्यक् परिपालन कर सके। बौद्धिक विकास का ध्यान रहता है। बौद्धिक विकास में अभिप्राय केवल यही नहीं है कि शिक्षित व्यक्ति कुछ तथ्यों को जान लेता है, बल्कि यह है कि वह जीवन के सभी क्षेत्रों में एसा व्यवहार करता है, जो बुद्धि-विरोधी नहीं। साहित्य और ललित कलाओं के प्रति अनुराग और उनके स्वर की पहचान को भी शिक्षित व्यक्ति का एक आवश्यक गुण समझा जा सकता है।

Unity Is Strength

A man had three sons. They were always quarreling with one another. The man felt disappointed seeing them quarreling. One day he gave them a bundle of sticks and asked them to break it.

Each of them tried to break it. Each of them tried a lot but could not break it.

Then the man untied the bundle and gave each of them a stick to break. They break it easily. Then the man told them that in unity lies the real strength.
